Core Skills in MSK Care + MSK Bitesize

Core Skills in MSK Care is a face-to-face course which focuses on developing the practical skills required in a typical 10-minute primary care consultation.

The training provides a supportive environment for primary healthcare professionals to develop confidence and skills in the diagnosis, treatment and management of patients with MSK conditions.

MSK Bitesize is a 3-hour webinar that focuses on different MSK conditions that can present in primary care.
